

Summary

Summary

In this module we looked at

- **Planets** and planetary motion
- **Stars**, their properties and evolution
- **Galaxies**, their properties and distances
- the **Universe** as a whole

Aim was to give *overview*, for details:

- PX217: **Stars**
- PX252: **Galaxies**
- PX311: **Relativistic Cosmology**
- PX3xx: **Astrophysics from Space**
- PX416: **High Energy Astrophysics**

All astronomers at Warwick hope to see you there soon!

The End
